

Lisa H. Gibson is the Founder and President of the Hawaii Science & Technology Council and its sister organization, the Hawaii Science & Technology Institute. The Hawaii Science & Technology Council is an industry association serving its members in Hawaii's ten science and technology sectors Ag Biotech, Astronomy, Energy, Engineering, Environment, Info Tech, Aerospace/Defense, Life Sciences, Ocean Sciences and Film/Digital Media. The Hawaii Science & Technology Institute mission is to serve Hawaii's low income communities through programs which create living wage jobs through acceleration the growth of Hawaii's science and technology economy.

Lisa Gibson has nearly 30 years experience in organizational and leadership development, fund development, volunteer management and community-building. In 1998 Ms. Gibson began her active involvement in economic development with her leadership role in the transition of the former Oahu Economic Development board to Enterprise Honolulu.
